

Safe Salt Supply  
1110 Yellowstone Ave.  
#111  
Pocatello, ID 83201

**DESCRIPTION:** Feed Wheat

Feed wheat is very high in energy with average protein (13%). High in starch (64%), low in fibre (3% as a naked grain), but tends to be low in vitamins especially biotin. Vitamin E is reduced when grain is stored moist with preservatives. It is useful for increasing milk protein yields and for the promotion of growth. Approximately 10% of the starch is rumen unfermented.
